Lead Fullstack Engineer | AWS Cloud Architect | Agentic AI

<http://www.linkedin.com/pub/david-lai/0/11/372> | <https://dlai0001.github.io/portfolio>

7+ years experience building, testing, scaling, and supporting high performance web applications, looking to transition to Agentic AI development. I bring a solid years of experience in full stack software development and solid text book understanding of Agentic AI application on AWS Bedrock platform.

Skills:

Programming Languages: JavaScript / TypeScript, Python, Java, C#, SQL

Frontend: React, React Native, Angular, Material UI, TypeScript, D3, Apollo Client, NextJS, Cypress, Selenium

Backend / APIs: Node.js, ExpressJS, Apollo GraphQL, Python/Django, Java/Spring Boot, REST API design, Microservices Architecture, Postgres, MySQL, DynamoDB, AWS Lambda, API Gateway, S3, Cloudfront, Redis, ElasticSearch, MongoDB

Cloud / Infrastructure: AWS (Certified Solutions Architect Associate), Docker, CI/CD, AWS Secrets Manager, AWS Cert Manager, Open Telemetry (OTEL), ELK Stack, Splunk, New Relic, Load Testing, JMeter, Locust.io, AWS S3

AI: AWS Certified Generative AI Developer Professional, AWS Certified AI Practitioner, Claude Code in Motion Certified Developer, AWS Bedrock, Prompt Engineering, RAG, Data pipelines, Github Copilot, Claude Code, Windsurf

Best Practices: GraphQL Schema Design, Cloud Architecture, Domain Driven Design (DDD), Automated Testing, Debugging (JS/Node), RFCs/Tech Specs, System Design and Architecture, Stakeholder leadership, UML Architecture, AWS Well Architected Framework, EVA Architecture, Web Performance, Front-end Architecture, Load and Performance Testing

Professional Work Experience:

Solomon Page / Voya Financial: Lead Fullstack Engineer

March 2026 - Present

- Angular
- Spring-Boot

Capital One: Principal Engineer

Jan 2023 - March 2026

- Front-end : Angular
- Back-end : Spring-Boot, AWS Lambda, DynamoDB
- Responsibilities: Spec designs, implementation, Infrastructure (AWS), Onboarding new lines of businesses to using our home grown identity solutions.
- Work with security researchers to implement the latest cybersecurity measures.
- Mentor Jr. Engineers and Interns.

David Lai

david@dlaisoft.com

Lead Fullstack Engineer | AWS Cloud Architect | Agentic AI

<http://www.linkedin.com/pub/david-lai/0/11/372> | <https://dlai0001.github.io/portfolio>

- Notable projects: App migration to AWS Secrets Manager, Redesign of Case Details Page, Migration to using AWS Cert Manager, Worked with notable external partners to onboard identity solutions.

PlayVs: Front End Lead / GraphQL developer

Sept 2020 - Oct 2022

- Lead front end architecture and development, designing and maintaining the GraphQL schema, and backend development. (80%/20% FE/BE dev ratio)
- Writing RFCs and Tech Specs setting up best practices and future direction of our technology.
- Working with UI designers and product owners to reimagine the product using modern ui frameworks and design.
- Mentor Jr Engineers and monitor their work.
- Notable projects: Revamped Onboarding flow, Notification Center, Revamped Dashboard, Revamped UI theming system, Billing usage data visualization

Workwell: Lead Developer

July 2019 - Sep 2020

- Frontend lead developer and architect
- React Native / GraphQL / Django Graphene full stack development
- Architected web/react native app
- Developed and shipped features such as account management, chat via websockets, typeahead search, drag and drop file uploads, graphql subscriptions.

SurfAir: Full-stack Developer

July 2018 - June 2019

- NodeJS/Express, Python/Django, AngularJS, React
- Reviewed code and mentored junior engineers.
- Worked with member management and accounting to maintain and develop new features for e-commerce, billing systems (Zuora), and flight reservation systems.
- Migrated legacy systems in AngularJS and NodeJS to Python/Django and React.
- Developed and supported e-commerce and flight booking APIs.
- Mentor Jr. Engineers and perform code reviews.

Breeze Orthodontics: General Manager

July 2017 - July 2018

- HR, Operations Manager, Logistics, Training, Sales & Marketing, IT, 3D Smile Design
- Online marketing - Hubspot, Google Analytics, Adwords, Website Design
- Turned around a dental practice losing -\$40k/year to generating over \$300k income/yr
- Implemented 3D printing and 3D smile design process
- Hire, train, and manage both office and chair side staff.
